200 People by the Hair! An average, healthy hair will support a quarter of a pound. There are 120,000 of these on the head. They all together would support 30,000 pounds. wouldn't they? This is equivalent

pounds each! It's mathematically true that an average head of hair will support an entire audience of 200 people. It doesn't seem possible, but it's so.

to an audience of 200 people, weighing 150

It doesn't seem possible, either, that Ayer's Hair Vigor restores color to gray hair; but it does restore it, and every time, too, -all the dark, rich color the hair had years ago. It stops falling of the hair also, and keeps the scalp healthy and free from dandruff.

"I have used Ayer's Hair Viger for thirty years and I do not think there is any thing equal to it for a fine hair dressing. I am never without it." J A. GRUENENFRLISER, Grantfork, Ill., June 8, 1899.
